EDUCATION

National Institute of Technology , Jalandhar

B.Tech - Electronics and Instrumentation - CGPA - 8.05

2020 – 2024

Jalandhar, Punjab

EXPERIENCE

Bharat Petroleum Corporation Limited

July 2024 - Present

Area Manager, Industrial & Digital Solutions

Delhi

- Collaborated in the enhancement and deployment of customer-facing features for the Customer Experience Platform (CEP), contributing to UI improvements, workflow optimization, and digital process automation
- Worked closely with cross-functional product and technical teams to identify operational bottlenecks and support the implementation of scalable digital solutions for enterprise customers.
- Utilized analytics and reporting tools to monitor business KPIs, customer performance, and operational efficiency, enabling data-driven decision-making across multiple business verticals.
- Managed and optimized enterprise workflows involving supply operations, customer onboarding, billing coordination, and commercial tracking for 170+ clients across multiple industrial sectors.
- Contributed to process digitization initiatives by supporting automation, structured data handling, and customer experience enhancements across internal business systems.

Intern at Sign3

Jan 2024 - June 2024

Role - Full Stack Developer Intern

Gurugram, Haryana

- Developed responsive web pages utilizing frontend technologies including JavaScript, React, HTML, and CSS
- Contributed to backend development using Python and Microsoft Azure to enhance organizational infrastructure and services

PROJECTS

AI Resume Analyzer Job Match System (React.js, FastAPI, LangChain, Generative AI)

- Developed an AI-powered resume analysis platform that extracted candidate skills, compared resumes with job descriptions, and generated ATS optimization and skill-gap recommendations using LLMs.

Customer Support AI Chatbot (Next.js, Python, FastAPI, LangChain)

- Built an intelligent chatbot capable of answering user queries from uploaded documents using Retrieval-Augmented Generation (RAG) and vector embeddings for context-aware responses.

Retail Sales Business Analytics Dashboard (Power BI, SQL, Excel, Python)

- Designed an interactive business analytics dashboard to analyze sales performance, customer purchase behavior, revenue trends, and category-wise insights using Power BI and SQL.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python
- **Technical Knowledge:** React.js, Next.js, Vite.js, Django, FastAPI, Flask, Generative AI, AI Agents, LangChain, LangGraph, Fine-Tuning LLMs, Classical AI, GPU Computing, Power BI, Advanced Excel, Object-Oriented Programming (OOP), Data Structures, Algorithm Design, Problem Solving, Operating Systems (OS), DBMS, MySQL
- **Soft Skills:** Communication, Leadership, Event Management, Writing, Collaboration

ACHIEVEMENT

- Contributed to CEP platform enhancements, workflow optimization, and digital process improvement initiatives for enterprise customers.
- Managed a 360+ Crore industrial portfolio across 170+ enterprise clients while supporting data-driven operations and commercial workflows.
- Collaborated on strategic industrial projects, product expansion initiatives, and enterprise business solutions across multiple sectors.
